## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 9-11, 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Boyle et al.

Doi et al. disclose discloses a spring/mass vibratory force coupler (Fig. 1) with variable damping and variable spring stiffness for coupling masses to a reference mass including a first mass (18) coupled to a second mass (16) via a first spring (58, 56) and a second spring (24) independent of the first spring, arranged in parallel, a damper (26), arranged between the second spring and the first mass wherein a damping function of the damper may be varied based on an application of a voltage to an electrorheological or magnetorheological fluid contained therein so as to provide a continuously variable spring stiffness, wherein when the damping function of the damper is tuned off, the second spring couples the first mass and the second mass without any damping function.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 9-14 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
